Gurney Water Treatment's Success Story

Barry Golden

"ETI is celebrating its 30th anniversary this year! With a 30-year track record of exceptional customer service, we're proud of the relationships we have built and maintained over the years. We've earned the reputation of being a true partner because we offer unique solutions and provide a competitive advantage. To underscore the fact that our success is tied to the success of our customers and partners, we're excited about featuring videos of their personal stories on our website all year long.

We believe celebrating our customer's success stories is the perfect way for us to say thank you, and we hope you enjoy these unique stories describing each customer's personal journey to grow and succeed."

- Gary Reggiani, President/CEO

"We don't compete so we're able to help each other. It's a great network; it's not typical."

- Barry Golden
